

Daily Maths Practice

Grade 3

Workbook 4

(Weekly counting, number recognition and formation, number value and bonds)

Weekly Counting Practice

Practice counting by writing the numbers on a big piece of paper.

Say the numbers out loud!

1

Count in 10's from number 10 to number 450.

2

Count in 10's backwards from number 500 to number 270.

3

Count in 50's from number 550 to number 1000.

4

Count in 25's backwards from number 1000 to number 625.

5

Count in 100's from number 100 to number 3500.

Challenging practice

Count in 10's backwards from number 1200 to number 900.

Well done, you are doing SO well.
Practice makes perfect!

Number recognition and formation

What is the value of the following numbers?

Write the number and the number word.

$50 + 6$

$200 + 60 + 9$

$300 + 70 + 1$

$200 + 40 + 6$

$300 + 80 + 3$

$900 + 4$

Number value

Let's have some fun with numbers!

156 139 172 194 209

Use the numbers above to answer these questions:

Draw a **red** circle around the smallest number.

Draw a **blue** square around the biggest number.

What number comes before number 139? _____

What number comes after number 209? _____

What number comes after number 172? _____

What number is the second smallest? _____

What number is the second biggest? _____

You are a
number
cruncher!

Challenging practice

Which numbers are odd numbers?

Which numbers are even numbers?

Bonds

Complete the following bonds:

21

Day 2: Memo

56	fifty-six
269	two hundred and sixty-nine
371	three hundred and seventy-one
246	two hundred and forty-six
383	three hundred and eighty-three
904	nine hundred and four

Day 3: Memo

156

139

172

194

209

Draw a **red** circle around the smallest number.

Draw a **blue** square around the biggest number.

What number comes before number 139? **Number 138.**

What number comes after number 209? **Number 210.**

What number comes after number 172 ? **Number 173.**

What number is the second smallest? **Number 156.**

What number is the second biggest? **Number 194.**

Challenging practice

Which numbers are odd numbers? **139, 209.**

Which numbers are even numbers? **156, 172, 194.**

Day 4: Memo
